

Mobile Media Converter - User Manual

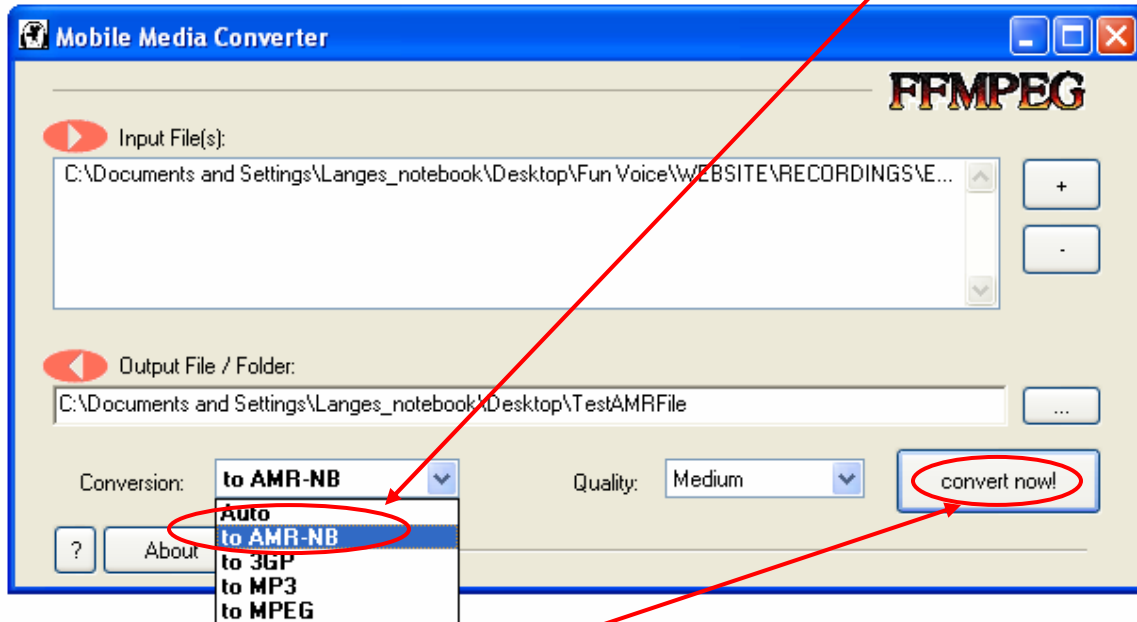

1. Open the Mobile Media Converter
2. Click on "+" beside the Input File(s) box and you will be able to browse to select from your PC the MP3 file/s you wish to convert.

3. To browse the destination where you wish to save the converted file, click on "..." on the second box. Remember to name the new file!

4. In Conversion, click on the drop down menu and select To AMR-NB

5. Click on Convert Now! and the file will be converted into AMR in a few seconds. Click OK if you are done or on More if you want to convert more files.
